

The following information, issued by the Registry of the International Court of Justice, has been communicated to the Press:

On March 29th, 1950, the International Court of Justice made an Order by which it removed from its List the proceedings instituted by the French Government against the Egyptian Government concerning the protection of French nationals and protected persons in Egypt.

The French Government had informed the Court that it was discontinuing its proceedings as the measures taken against the persons, property, rights and interests of French nationals and protected persons had been withdrawn by the Egyptian Government, so that the dispute was virtually settled.

The Hague, March 31st, 1950.
